PROFILE

BSc (Hons) Games Technology graduate (UWE Bristol, May 2026) targeting junior gameplay and games programmer roles. Built C# and C++ projects across the full lifecycle through coursework, two game jams, and team-based work using Git. Comfortable taking a feature from spec through implementation, debugging, and iteration. Four prior years across BT and AXS in technical-support roles built strong written communication, structured problem-solving, and the patience to talk to non-engineers. Open to relocating anywhere in the UK for the right studio.

TECHNICAL SKILLS

◆ C# (Unity, OOP)	◆ C++	◆ Python	◆ SQL
◆ Git & GitHub	◆ Object-Oriented Programming	◆ Software Testing Principles	◆ Agile & Collaborative Dev
◆ Problem Solving & Debugging	◆ Version Control Workflows	◆ RESTful API Concepts	◆ Technical Documentation

EDUCATION

University of the West of England

Expected 2:1, May 2026

BSc (Hons) Games Technology

- Modules spanning software engineering, graphics programming, AI systems, and game design
- Developed C# and C++ projects across the full lifecycle: design, implementation, testing, and iteration
- Consistent use of Git for version control on individual and team-based coursework

PROJECTS

Game Jam Participant (×2)

2024–2025

- Built fully playable game prototypes within 48–72 hour deadlines, working in small collaborative teams
- Applied C# and Unity to deliver functional, tested builds under tight time pressure
- Used Git and GitHub for version control and team coordination throughout development
- Demonstrated Agile-style iteration: rapid prototyping, peer feedback, and continuous improvement

PROFESSIONAL EXPERIENCE

Retail Assistant, Co-op

2025 to Present

- Deliver high-quality service in a fast-paced environment while managing competing priorities
- Resolve customer queries efficiently and maintain clear, professional communication

Live Chat Agent, AXS (Foundever)

May 2024 to Sept 2024

- Provided real-time technical support via live chat, diagnosing and resolving complex customer issues
- Handled high volumes of queries while maintaining strong satisfaction and KPI performance

- Translated technical problems into clear, user-friendly solutions, the same skill applied to working with stakeholders and product owners

Front Line Agent, BT

Mar 2018 to Apr 2020

- Delivered technical support for broadband and telephony services, resolving issues efficiently
- Applied structured problem-solving and de-escalation in high-pressure environments
- Maintained strong KPI performance across quality, resolution, and customer satisfaction metrics

CORE STRENGTHS

◆ Clean, Maintainable Code	◆ Collaborative Teamwork	◆ Strong Communication	◆ Attention to Detail
◆ Fast Learner & Adaptable	◆ Stakeholder Understanding	◆ Technical Troubleshooting	◆ Curiosity & Initiative
